Kelso, WA. 98626
(Location may change due to COVID protocol)

To Register: Send your first/last name, best contact email and phone number, & the agency you are representing, to: hembreeL@co.cowlitz.wa.us

Cost: FREE (Participants must sign up and receive email confirmation prior to class)

Course Overview:

ICS 100, Introduction to the Incident Command System; introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

ICS 200, ICS for Single Resources and Initial Action Incidents; is designed to enable personnel to operate efficiently during an incident or event within the ICS. ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

IS 700, An Introduction to the National Incident Management System (NIMS); provides an overview of the NIMS. The NIMS defines the comprehensive approach guiding the whole community – all levels of government, nongovernmental organizations, and the private sector – to work together seamlessly to prevent, protect against, mitigate, respond to, and recover from the effects of incidents.
